WEB DEVELOPER

Skilled in building responsive React.js and Next.js applications using HTML, CSS, and JavaScript. Comfortable with SSR, SSG, and dynamic routing in Next.js, along with API routes and performance optimization. Experienced with the MERN stack through hands-on full-stack projects, and familiar with CI/CD workflows and Agile methodology for delivering iterative, collaborative, high-quality software. I have also built an expense tracker app, which you can try at [expense-tracker](#)

TECHNICAL SKILLS

Frontend Languages: HTML, CSS, Javascript, JQuery, React.js, Next.js, Bootstrap, Tailwind CSS

State Management: Redux Toolkit, Context API, Zustand

Backend Databases: Node.js, Express.js, .NET, MongoDB, PostgreSQL, MySQL, Firebase, RESTful APIs

Tools: Code, Postman, Figma, pgAdmin, Android Studio, Axios, Chart.js, React Hook Form,

PROFESSIONAL STRENGTH

Soft Skills: Effective communication, client interaction, team collaboration, adaptability, quick learning, problem solving, time management, active listening, and interpersonal skills

PROFESSIONAL EXPERIENCE

Full Stack Developer

Immentia SMC Private Ltd

Shamsabad, Rawalpindi, PK

Nov 2025 - Present

Working as a Full Stack Developer building web applications with React.js on the frontend integrated with a .NET backend, alongside Node.js and MongoDB services for data-driven features and API development.

Full Stack Developer

LALA Group of Companies

Shamsabad, Rawalpindi, PK

July 2023 - Nov 2025

Developed and integrated Node.js and PHP APIs with MongoDB and MySQL for dynamic data retrieval, optimized performance by reducing load times, implemented Redux for state management, and built scalable, maintainable React applications.

Islamabad, PK

Front-End Developer (Remote)

ORIXES TECH

Feb 2023 – Dec 2023

Built and integrated Node.js APIs with MongoDB for efficient data management, enhanced application performance by minimizing load times, utilized Redux for state management, and developed scalable, maintainable MERN stack applications.

Front-End Developer

MSK SOFTWARE HOUSE

Islamabad, PK

Feb 2023 – Dec 2023

Built dynamic, user-friendly web apps with React.js, integrated APIs, and designed responsive layouts — focusing on performance, scalability, and intuitive client-facing interfaces

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Virtual University of Pakistan

PROJECTS

- **Vendix** — Salon SaaS platform (Saudi market), built with ASP.NET Core MVC (Razor) and vanilla JavaScript. Built the owner dashboard (KPI cards, Chart.js analytics), sidebar redesign, dark/light theme system, POS checkout module, and ZATCA e-invoicing admin panel. · <https://pilot.vendix.com.sa/>
- **BizProbe** — Business review platform, built with ASP.NET Core MVC (Razor) and vanilla JavaScript. Built the dynamic Reviews page, homepage recent-reviews section, and hero search UI with tab filtering. · <https://bizprobe.com/>
- **EmployerNext** — Global job search platform, built with ASP.NET Core MVC (Razor) and vanilla JavaScript. Built the navbar, hero upload validation, and scroll-behavior fixes. · employernext.com.
- **Falak Software** — Software agency site, built with ASP.NET Core MVC (Razor) and vanilla JavaScript. Built core homepage sections: hero, services carousel, testimonials slider, and portfolio. · falaksoftware.com
- **ScamSoldier** — Essay writing service review platform. Built with .NET (backend) and vanilla JavaScript (frontend interactions). · scamsoldier.com
- **TripPlannerPK** — Pakistan travel booking platform for flights, hotels, visas, and Hajj & Umrah packages. Built with PHP (backend) and React.js (frontend). · tripplannerpk.com
- **Jamia Sohan** — Islamic seminary platform. Implemented Arabic/Urdu localization with custom Traditional Arabic font integration and RTL layout. · <https://jamasohan.org/>
- **Expense Tracker** — Personal full-stack project built with React.js and Node.js/MongoDB (MERN), deployed on Vercel. · expense-tracker-front-end-seven.vercel.app
