NEXTJS DEVELOPER

Proficient Next.js Developer with 3+ years of experience building scalable, SEO-friendly web applications using Next.js (SSR, SSG, ISR) and React.js. Skilled in converting Figma/Adobe XD designs into responsive, pixel-perfect interfaces with Tailwind CSS, Material-UI, and ShadCN. Experienced in developing secure RESTful/GraphQL APIs with Node.js, Express.js, and managing databases like MongoDB and Firebase. Adept at TypeScript, Redux, and CI/CD pipelines to deliver high-performance, maintainable solutions with clean code and intuitive UI/UX.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Virtual University of Pakistan

TECHNOLOGIES

- **Frontend Languages:** Next.js (SSR, SSG, ISR), React.js, TypeScript, HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, Material UI
- **State Management:** Redux, Redux Toolkit, Context API, Zustand
- **Backend & Database:** Node.js, Express.js, MongoDB, PostgreSQL, Firebase, RESTful APIs
- **Tools & Software:** VS Code, Android Studio, Figma, pgAdmin, Postman
- **Libraries & Utilities:** Material UI, Chart.js, Axios, Framer Motion, React Hook Form, React Query

EXPERIENCE

Full Stack Developer

LALA Group of Companies

Shamsabad, Rawalpindi, PK

July 2023 - Present

At LALA Group of Companies, I integrated APIs for dynamic data retrieval, optimized performance by reducing load times, implemented Redux for effective state management, and developed scalable, maintainable React applications, ensuring a seamless, efficient, and user-friendly experience while following Agile methodology.

Front-End Developer (Remote)

AZBA SOLUTION

Islamabad, PK

Feb 2023 - Dec 2023

While working remotely with Azba Solution alongside my full-time job, I created fast and responsive websites with a strong focus on accessibility and performance. I collaborated closely with backend teams to integrate APIs for real-time data updates and applied Redux for state management to maintain code quality and scalability.

React JS Developer

MSK SOFTWARE HOUSE

Ghauri Town, Islamabad, PK

Jan 2022 - June 2023

During my time at MSK Software House, I developed dynamic and user-friendly web applications using React.js, integrated APIs, and designed responsive layouts. I focused on optimizing performance and ensuring scalability while collaborating with clients to deliver intuitive and polished user interfaces.

PROJECTS

- tripplannerpk.com

A global online booking platform built with React.js (frontend) and PHP (backend), enabling users to book tours, visas, and transport worldwide. Features efficient API integration for smooth frontend–backend communication.

- hajjharamain.com

An online Hajj booking platform built with Next.js, utilizing file-based routing and API integration. Implemented state management to share and persist user data across all pages, ensuring a seamless booking experience.

- capreasy.com

Developed a platform for booking tours, accommodations, and boat rentals. The website simplifies travel planning, allowing users to explore and reserve options for their trips with ease.

- wilsonspatientcommunity.com

Wilson's Patient Community is an online platform that connects patients with a global network of medical professionals across all specialties. Doctors collaborate to provide expert opinions, second opinions, and health insights, creating a trusted space for medical advice and community support.
